

Product Data Sheet

PRODUCT: Ammonium Benzoate, ACS

CAS # [1863-63-4]

Ammonium Benzoate, Reagent Grade, ACS

Empirical Formula: C₇H₉ON₂

Molecular Weight: 139.15

CAS # [1863-63-4]

Specifications

Assay	98.0% minimum
pH,	5% solution at 25°C 5.0-8.0
Insoluble Matter	0.005% maximum
Residue	0.005% maximum
Substances reducing permanganate	- pass test
Chlorides (Cl)	0.01% maximum
Heavy Metals (as Pb)	0.001% maximum
Iron (Fe)	0.001% maximum
Appearance	white powder

Not for direct use in food, cosmetics, finished pharmaceuticals or drug products. Supplier is not responsible for compliance with FDA Current Good Manufacturing Practice (CGMP) requirements, including without limitation those for finished drug products in 21 C.F.R Parts 210 and 211.
