

**PRODUCT: Ammonium Citrate, Dibasic, pH =3.5, 40% in DI water**

CAS # [3012-65-5]

Synonyms: Citric acid ammonium salt or Diammonium hydrogen citrate or Di-Ammonium citrate or Ammonium hydrogencitrate 50% solution in DI water

MW: 226.19

EC Number 221-146-3

Merck 14,512

Beilstein Registry Number 4925760

RTECS GE7545000

MDL Number MFCD00013068

PubChem Substance ID 24846459

**Product Specifications**

<u>TEST</u>	<u>MIN</u>	<u>MAX</u>
Assay as solution, %	39.5%	40.5%
Specific Gravity	1.172	1.225
pH	3.3	3.7
Appearance	Clear liquid water white to pale yellow free from foreign matter	

Not for direct use in food, cosmetics, finished pharmaceuticals or drug products. Supplier is not responsible for compliance with FDA Current Good Manufacturing Practice (CGMP) requirements, including without limitation those for finished drug products in 21 C.F.R Parts 210 and 211.
